

What is the Societies Council?

- The Societies Council is the opportunity for you to have your say on how the Students' Union supports your societies
- Your opinions are essential for shaping how we work to support each other and enable societies to continue to grow and develop. It also brings different societies together to share ideas and work together
- Every society should be represented by at least one member at each council. All student society members are welcome and encouraged to attend
- Full details on our Societies Council Bye Law and all meeting minutes are available on the Societies Council page on our website:
<https://www.uwsunion.org.uk/societies/council/>

When and where?

- The Societies Council meets at least four times a year
- Council meetings will be either online or in-person
- Invites will be sent to society email accounts. You must then share these details with your committee and society members
- The agenda will be provided in advance of each meeting. We encourage you to suggest what you would like to be included in the agenda

Societies Leadership Team

Each year the Societies Council will elect a Societies Leadership Team, who's role will be to:

- Ensure the Students' Union acts on ideas and issues raised at Council meetings
- Help plan and coordinate society events
- Approve any necessary society affiliation and funding decisions
